Click Connect Create

Book ink is a platform that connects tattoo artists with clients. From tailored galleries of inspiration, to constructive reviews and personalized tattoo bookings, we've got you all covered with a click of a button.

We are driven by the excitement of revolutionizing the tattoo industry and aiding in its digital progress.

Our mission is to create an end-to-end booking platform that will facilitate, handle and organize every step of the tattoo process for both artists and clients.

2.0 - Problem Statement

1 Artists receive a ton of messages on different platforms & it makes the process way more difficult to them

2 It is so hard & time consuming to gather & collect clients' data on the current platforms

3 No automated organization on the platforms artists already use (Instagram, Email, Whatsapp, Facebook, etc.)

4 Targeted ads are not effective on Instagram & Facebook

ZEN'S VALUES

TEAM DEVELOPMENT

We invest in the personal development of our team, as they're **ZEN'S** biggest asset.

CREATIVITY

We will always find new creative solutions, in any capacity, at any stage of a project.

AMBITION

We are proudly ambitious for our clients, for **ZEN**, and ourselves.

ZEN

EXCELLENCE

We aspire to excel in every video film, production, and live streaming service.

COMMUNICATION

Outstanding communication is what we stand for, from our content productions to internal processes.

RESPONSIBILITY

We are responsible filmmakers who take ownership for anything we do.

LIVE STREAMING

Whether you are hosting a virtual event, in-person, or hybrid, in a mix of both, we are on a mission to broadcast it properly using our video production superpowers.

We specialize in Live streaming and a broadcast for a range of corporate and entertainment events across Qatar, connecting audiences to companies by breaking down physical limitations & providing you with bespoke solutions that will exceed your expectations.

EVENT LIVE STREAMING PRODUCTION

Our producers help you share your virtual or hybrid event in a sleek picture with remote audiences in real-time. Live streaming has now become approachable for corporates of all sizes in the modern era of storytelling, in addition to major events like sports, concerts, and television productions.

On average, live videos are viewed 6x longer, have 10x the comments and shares, and are favored in search results over traditional videos. So, whether you are planning your company's next meeting, coordinating global product launch events, hosting a virtual conference, or creating a series of product launch videos, **ZEN Productions** has the experience to make your vision a reality.

INFLUENCERS LIVE STREAMING COVERAGE

In an unprecedented pioneer step in this region, we have collaborated with big names in the influencers' pool. The aim was to cover your events through their channels "Live," providing them with quality, well-produced material on-site to broadcast your event in the most refined image there is.

SOCIAL MEDIA LIVE STREAMING

Your video production scale can be anywhere between one camera to a complete on-site broadcast, including lighting, sets, multiple cameras, and logistic support. We will stream the outcome to across the social media platforms of your choice simultaneously. Suitable for Instagram, Facebook, YouTube, Twitter, Twitch, and more.

User Experience Design

Regardless of its medium, UX Design encompasses any and all interactions between a potential or active customer and a company. As a scientific process it could be applied to anything; street lamps, cars, Ikea shelving, and so on. Essentially, UX applies to anything that can be experienced—be it a website, a coffee machine, or a visit to the supermarket. The “user experience” part refers to the interaction between the user and a product or service, UX design is NOT about visuals; it focuses on the overall feel of the experience.

User Interface Design

Unlike UX, user interface design is a strictly digital term. A user interface is the point of interaction between the user and a digital device or product—like the touchscreen on your smartphone, or the touchpad you use to select what kind of coffee you want from the coffee machine.

In relation to websites and apps, UI design considers the look, feel, and interactivity of the product. It's all about making sure that the user interface of a product is as intuitive as possible, and that means carefully considering each and every visual, interactive element the user might encounter.

A UI designer will think about icons and buttons, typography and color schemes, spacing, imagery, and responsive design.

Join us & explore some of the hidden gems we've polished using the best UX & UI practices around the world.

Overview

In a blend of cyber energy, a fearless mindset, and a daring attitude, ZEN is a medium for creativity characterized by its from the market's comfort zone.

ZEN's youthful soul gleams through its edgy approach and fresh take on the way things are intertwined in the audience's field.

ZEN is not some kind of excitement, but concentration on our usual everyday routine.

Mission

Our mission is to utilize our remarkable video production capabilities to cultivate the culture of unified video production of your event to be live-streamed across your social media platform.

Moreover, and for the first time in the middle east, we put forward the option of having it broadcasted on the "live" service of one or more of our contracted popular and specialized influencers.

Vision

We aim to usher in a new era of video production, placing the latest technologies in the hands of our creative team and outstanding directors and hosts to make our clients rejoice into a "THAT'S EXACTLY IT!" moment.

We also strive to enable our clients to share experiences through our branded live streaming production, unfolding a world where every event is available live online, working simply, within the ZEN culture, doing one thing at a time.

When the word "Butler" is mentioned, some of these words inevitably pop in our heads: wine, liquor, luxury, serving, relieving or even more, organizing. The offerings of Butlers & Co are deeply tied to the roots of this word.

This Holding and P&B Consulting Expert brings to their audience the best of late century London's bars with House of Butlers, a liquor shop and cocktail bar; as well as the experience of the 1900s Italian bars with Cyrano Apero, a neighbourhood aperitivo bar.
